WHAT IS THE MATTER?

His Proposed Withdrawal from the
Congressional Race!

On Monday night Malden Jones was at Mattoon, from which place he telegraphed to the members of the Democratic Congressional Committee asking them to meet him at Champaign to-day, the reported object being to receive his resignation as a candidate. In accordance with this request the member of the committee for this county, John R. Miller, left on the 11:40 train to-day for Champaign.

The first rumor of Mr. Jones' proposed withdrawal came to us this morning from Monticello county, and it was confirmed later in the forenoon by a note from a well-posted gentleman of Coles county, who gave the details as we have stated them. Subsequent inquiry revealed the fact that Mr. Miller had gone to Champaign.

It is difficult to understand the reasons for this sudden display of the white feather on the part of Mr. Jones, but the presumption is that the effort to commit the Democrats to the fat-money lunacy has proved to be too great a load to carry. Mr. Jones and his organs have been endeavoring to show that the Democratic and National platforms were "like as two peas," and now comes Gen. Farnsworth into the district preaching a gospel diametrically opposed to this theory. This was too much. Mr. Jones could make a still hunt, being fish to one and flesh to another, but to have an orator like Gen. Farnsworth sent around through the district to upset all his fine management is more than Malden can stand. This seems to be the most rational explanation of the matter. But, it may be that there is some other answer to the conundrum, it may be an effort to consolidate the whole anti-Republican strength upon Jesse Harper, or some other man. If this is the programme the people will not be slow to "set down" on the scheme. However, there is no use in Republicans borrowing trouble. Mr. Cannon will be elected on the 5th of November, whether Mr. Jones gets off the track or not—whether he has two opponents or one.

THE MISSISSIPPI PLAN.

Independent.

Wade Hampton's legislature, at its last session, passed an election law by which the political ascendancy of Democracy in the State of South Carolina, notwithstanding the large majority of Republican voters, should be indefinitely guaranteed. One of the ways in securing this result is to abolish nearly all the polls at which large Republican majorities were cast in 1876, and make the polling places so few and so distant from nearly all the voters as to virtually disfranchise the mass of them. This is not direct bulldozing, but it aims at the same result. It makes voting, in the strongly Republican districts and sections of the State, so difficult and inconvenient as to deny the privilege to thousands and tens of thousands; and, since most of the Republicans to be affected thereby are colored people, it fits right in the very face of the spirit. If not the letter of the Fifteenth Amendment, Charleston county, which is the largest Republican county in the State and in their election would give a Republican majority of about eight thousand, is a conspicuous illustration of Democratic iniquity through the forms of law. The polling places are so arranged in this county that, in those parts where the voters are nearly all Republicans, they must travel from twenty to fifty miles in going to and from the polls; and, considering the fact that they have no facilities for making such a journey, and that the most of them could not afford the expense, this, as was intended, is equivalent to their disfranchisement. And yet Wade Hampton, who was never elected by the people and now talks so prettily about equal rights to all classes, placed his signature to an infamous law. Shame on the hypocritical pretense and shame on South Carolina Democracy. Such Democracy and such Governors are simply a fraud, as wicked and dishonest, if not as cruel, as a slaughtering bulldozer. The whole thing is only the Mississippi plan in another form.

DON'T BE DECEIVED.

Consumption in the Cleveland Leader.

"How many times my heart has ached to see delicate children with their lower limbs exposed, not only in cool, but in damp, chilly weather; nothing to protect them but thin stockings and thin shoes, suitable only to the very warmest weather. Should we wonder that diphtheria carries off so many children? The wonder to me is that the mortality is not greater. I consider that this unsuitable exposure of clothing children is the promoter of more cases of diphtheria than all other causes combined, especially in this variable climate. It appears that parents pay no attention whatever to the changes in the weather from June to November; so matter how chilly or cold the weather may be, the thin stockings and absurdly short dresses and exposed neck and arms are to be met with upon our streets everywhere. It seems to me that the attention of parents should be called to this great neglect on their part to properly clothe their children according to the state of the weather, no matter what may be the season of the year. It would appear difficult to overlook this subject of clothing in our search after causes for diphtheria. What physician does not know that the blood recedes from or shrinks, as it were, from cool localities to seek a more congenial latitude? And where will it go to? Why, it can only find shelter in some of the vital organs, and then what is the result? Congestion of one or more organs, unless the person happens to be possessed of sufficient vitality to bring about a reaction in the circulation. Some people have this and recover, while, perhaps, in the meantime, many others less favored do suffer and die.

The "solid South," which has in pickle a stack of rebel war claims which in the aggregate amount to about the size of our present national debt, is rejoicing over the prospect and the hope that the Democrats and "National Greenbackers" together will succeed in preventing the Republicans from securing a majority in either branch of the next Congress. They regard every Greenbacker who is elected by the assistance of the Democrats, as in the case of De La. Martyr in Indiana and Weaver and Gillette in Iowa, as "the same thing as a Democrat." And they are right. Every man who has been or may be elected to Congress in opposition to a Republican candidate, will be found on the Democratic side on all test questions, including every scheme of robbery, plunder and outrage which the "solid South" may propose. That may be counted upon as a certainty. No wonder then is rejoicing in the South whenever a so-called "Greenbacker" is elected to Congress over a Republican. Such a result is then regarded as a triumph in favor of "more greenbacks" for the South, out of the national Treasury, and at the expense of Northern taxpayers.—Chicago Journal.

Sometime in the nature of a National Democratic Convention is likely soon to assemble in Washington to determine what shall be done about the cipher telegrams. That something must be done is certain. It is not a question of Tilden in 1880, for that may be considered as settled, but it is a question of Tilden in 1876, and of the odium cast upon the Democratic party by the recent revelations. This is the matter shortly to be considered by a convocation of leading Democrats, many of whom have already arrived in Washington for the purpose of considering the proper course to pursue. It is said that their first business will be to ascertain whether the cipher telegrams printed in the New York Tribune are genuine and the translations correct; and then, after these points have been settled affirmatively, as they undoubtedly will be, will come the question, What to do with Tilden. The feeling is reported to be strongly in favor of a formal, deliberate, and authoritative disavowal and denunciation of the man and his methods by the Democratic party.

Successful Stock Operations. There is much talk about stock operations and the rapid fortunes that are amassed by them, but very few people understand just how it is done. Messrs. Lawrence & Co., Bankers, 87 Exchange place, N. Y. city, have published full details of their new Combination Method of operating in stocks, which is wonderfully successful. By pooling the orders of thousands of customers into one immense sum and operating them as a whole, each patron is placed on an equality with the largest operator, and vast profits are divided pro rata among shareholders every 30 days. \$25 makes \$100, or 4 per cent. on the stock in the month; \$100 makes \$125 or 25 per cent.; \$150 makes \$187, and various profits according to the movement of stocks. Safety and success are the distinguishing features of this system. R. Y. Badger, of San Francisco, Cal., writes: "I have never made so much money in the same time as I have by your combination system." The new circular (copyrighted and sent free) explains all details. All kinds of Stocks and bonds wanted. New Government Loans supplied. Best references Address Lawrence & Co., Bankers, 87 Exchange Place, N. Y. City. Oct. 12-d&w

WASHINGTON, Oct. 15.—The Republican to-day prints an interview with Representative Rainey and Stephen A. Swails, of South Carolina, regarding the condition of affairs in their State, and their interview with the President yesterday, at which the latter is reported to have said to Mr. Swails that he could go home and tell the colored Republicans that they shall have all the protection that the law will give while exercising the rights conferred upon them by the constitution.

The Republican, in a double-leaded editorial, declares that the state of affairs in South Carolina is virtual revolution, and calls upon the President to rise to the magnitude of the occasion and vindicate the constitution, the laws and the people's rights at all hazards. It is evident, from the character of the publication here and the talk of Republican politicians, that a strong pressure is being brought to influence the President and the Administration to take a radical departure in the event of Southern troubles. The President, however, so far, has not yielded or adopted the suggestions made looking to such an end, but has listened patiently to the statements regarding the alleged persecution of the Republicans in South Carolina without an indication that he is disposed to resort to any extreme measures to check them and prevent their recurrence. It is expected that some consideration will be given to this matter at the Cabinet meeting to-day.

DAVENPORT, Iowa, Oct. 15.—It is not at all probable that the Democrats of this (the Second) district will attempt to hold another Congressional election in November as the First District Democrats have decided to do. The project is not at all popular here, and prominent Democrats say it would be dishonest. Judge Brannan, late the Democratic candidate for Congress, was in the city yesterday and unhesitatingly declared that he would, under no circumstances, be a candidate at another election.

NEW YORK, October 15.—Haar & Co., German bankers at 35 Wall street, have failed. The firm was "long" of gold and "short" of stocks.

LATER.—The announcement to the Stock Exchange of the failure of Haar & Co., an order to buy \$1,000,000 of gold, and that firm bought the same on their own account. The statement was also made that Haar & Co. were long of \$1,100,000 gold and short of 9,000 shares of stock.

CONCORD, N. H., October 15.—The Concord Saving Banks has been compelled to close its doors. It is believed the depositors will receive about 90 per cent.

PEORIA, ILL., Oct. 15.—Early this morning an explosion in the alcohol still of Woolner's lower distillery occurred, and the still and building were destroyed by fire. John Carroll, the night watchman, was blown out of the building by the force of the explosion and seriously injured. The loss is fully covered by insurance.

LIVER IS KING.

The liver is the imperial organ of the whole human system, as it controls the health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint, and all the numerous symptoms that result from an unhealthy condition of the liver and stomach. Sample bottles to try, 10 cents. Dr. F. C. Fowler, 111 N. 3rd St., St. Louis, Mo. Sold in all towns on the Western Continent. Three doses will prove that it is just what you want. Aug. 9-d&w

A REPUBLICAN reporter called at the above-named establishment yesterday, and found the proprietors and assistants engaged in attending to their arduous duties. The business of Shellbarger & Co. has increased largely within the past few years, and now it is simply stupendous. They have recently caused to be erected a large steam grain elevator, which enables them to deal in all kinds of grain at wholesale and retail; they are also making improvements in their milling machinery, and will in a few days commence manufacturing flour by what is known as the "New Process." These improvements have necessarily caused an outlay of considerable capital, but their rapidly increasing business warrants them in making their flouring mill second to none in the west. In a few days we will have the pleasant task of giving our readers a description of this establishment, together with a few interesting statistics.

And the Stars and Stripes Flloating from Public and Private Buildings.

Programme for To-morrow.

The day opened with some clouds and occasional sprinklings of rain, which had the effect to create an anxious feeling on the part of those who were interested in the grand reunion, but, notwithstanding the unfavorable outlook, the people of the city—especially the business houses—proceeded to decorate their buildings with evergreens, bunting and flags.

The sitting up of the court house as headquarters, and as the place for holding the meetings of the Mexican war veterans, was mostly completed yesterday, and the work is done with good taste.

On the table in front of the rostrum is a bust each of Abraham Lincoln and Stephen A. Douglas, and on the west side of the stand is a large photograph of the late General J. C. Pugh, who was a Captain in the Mexican war, with the frame wreathed with evergreen.

On the walls of the building is a liberal display of bunting and flags, with other appropriate decorations. Here the Mexican war veterans hold their business meetings, and the court house is a sort of general rendezvous for the boys in blue.

In court house block are the two large stores of R. Liddle, which are decorated in a manner becoming such close proximity to the general headquarters.

In addition to the decorations already described, the following business houses made fine displays of bunting, flags and other decorations:

Warren & Durfee's office, Mrs. Adams' restaurant, Hogan's barber shop, Fred Smith's grocery, Ruby's saloon, Mueller & Co's gun shop, and Reibensman's saloon, over the street between Mueller's and Myers' building was a large flag. Mr. George P. Hardy made a fine display from the council room and the hall above it, and Cheap Charley is abundant in stars and stripes. North from this point are Goldstein's music store, Mr. Wilkinson's millinery and music store, Young & Norman's barber shop, Tanner & Tyler's harness shop and Michl's cigar store.

At the corner of Water and Park streets is the office of Haworth & Sons, which was finely decorated, as was also the office of Justice Curtis. East on Park street are Peddesord & Burrows' bank, Hildebrand's drug store, Dennis & Rea's hardware, Washburn's grocery, Roach & McLeary's dry goods, Stoner's drug store, Butzle's furniture store and Kelly's grocery, all displaying flags in liberal supply.

On the east side of Franklin street the livery stable of Hardy Bros. is literally covered with flags, and Mr. A. A. Bishop also recognized the occasion by displaying flags from his windows.

In the park Mr. Bird placed a flag at each corner, and made a good show on the fountain.

The hose houses throughout the city have been decorated by the fire and water committee.

Courtesy of the Wood, Priest's Hotel Mrs. R. C. Hamaker and Dalt Steward American Express office, Turn Halle and Postoffice hang out flags.

EXTRA DECORATIONS.—A large flag is suspended across the street in front of the Grenadiers' armory, with smaller flags in the windows.

Olin & Dodson's saloon is very handsomely decorated; a large flag is looped across the front of the building, with a liberal number of smaller flags below.

Denn. W. Jones has decorated D. W. Brennan's palace saloon in elegant style.

The Decatur Guards have exhibited excellent taste in decorating their armory. The company's flag is floating from the flag staff, and one hundred smaller ones flutter from the windows.

A large piece of cloth, on which is painted in large letters, "Decatur Guards," hangs in front of the building, and a steel engraving of Washington hangs over the entrance to the armory. The armory hall is also hung with many fine portraits, and otherwise handsomely decorated.

Linn & Scroggs make one of the finest decorations in the city, and the front will be brilliantly illuminated this evening with locomotive headlights.

Among the more noticeable and attractive decorations were those of "Marlin's" restaurant, being a general display of flags, bunting and evergreens, very tastefully arranged by W. H. Jeakle, the manager. The whole will be brilliantly illuminated with Chinese lanterns and was candles to-night.

REPORT DECORATIONS.—The street cars are patriotic. Along the line of the street railway private residences are profusely decorated.

The interior of Col. White's hotel is studded with flags, and Milligan's saloon unfurls the banner to the breeze.

The Tank Line Co. hang out about 50 flags, tastefully arranged.

Flags float from the Decatur Furniture and Coffin factories.

THE GATHERING OF THE BOYS.—The T. B. & W. train, which came in at ten o'clock, brought a large delegation of veterans from Friends Creek and Whitmore townships, which was met at the depot by the band and escorted up town.

At about eleven o'clock the band went down to the point where Main street is crossed by the Central railroad, to meet the Long Creek, Mt. Zion and Wheatland delegations of veterans, who came in mounted, bringing with them the flag of company C of the 116th Illinois. Under the escort of the band these veterans marched to the court house and reported to the Marshal.

About the same time the two brass bands from Springfield, of which mention was made yesterday, came up from the depot, each piece being drawn by four horses. These cannons, we understand, are to remain here in custody of an artillery company that is being formed.

With the soldiers came crowds of people from the country, and by noon the town was full of people, the attendance largely exceeding the expectations of everybody.

PROGRAMME FOR TO-MORROW.—The following, in the formation of column and order of march, will be observed:

1. Brass and martial bands.
2. Battalion state militia.

THE TARGET PRACTICE.

Our Local Military Take to the Woods and shoot for a Silver Cup.

The first annual target practice of the Grenadiers and Guards took place yesterday. Not only the Decatur companies, but all others belonging to the I. N. G. were also ordered out by the "big gun" at Springfield. The object of this exercise is to perfect the state militia in shooting, so that when the call comes "To arms!" the boys will not fire at random. An elegant silver cup was offered by the State to the company making the best average out of a possible score of 85.

Yesterday, for the first time, our companies fell into line and marched off to the target grounds. The Grenadiers (88 men) repaired to the gravel bank, and the Guards (48 men) went to the water works. Every man had to shoot a distance of 150 yards at a regulation target, 4 ft. by 6 in. size. A strong wind was blowing from the south, which made it very difficult for the "boys" to hold their guns steady.

The shooting was in progress all day, each man firing ten times, seven of which counted on the score book.

The best score of the Guards was 10, and the bull's eye was perforated by two members. The average of the company is 64.

The Grenadiers made a much better score, having in their ranks men of experience in the handling of firearms. Their highest score was 25, the bull's eye being peppered a number of times by different members. Their average is 18.

The reports will be made out by the commanding officers and sent to military headquarters, and by Nov. 1st, we will be enabled to inform our readers who received the silver cup.

Captain Goodman was in command of his company, and in the absence of Capt. Zeiss, Lieut. C. M. Durfee commanded the Grenadiers.

Have, in addition to their other novelties, *The Warrent* two-spool sewing machine. It is a curiosity, and a great improvement on the old style shuttle and bobbin machines, sewing right from the spools and making the lock stitch. It is completeness itself. Call and see it. The firm is also agents for the celebrated *Light Running Domestic*, now so popular in this section of the state. The Domestic has been tested and found to be the family machine. Now comes the Wardwell, which has no equal in any land.

Never Buy a Clock until you have seen the varied assortment at Curtis & Ewing's. They have all kinds and at all prices, from two dollars up. They warrant every clock. [Oct 15-dw]

Joy to the Afflicted.—One of our most eminent American Chemists has discovered a process whereby he obtains, in a palatable form, all the active medicinal properties of the East India Cinchona bark, without disturbing the irritant and inert matter. In this preparation the alkaloids are in their native combinations, and the same proportions of the ingredients are maintained as exist in the celebrated bark from the Nigherry Hills.

This preparation is called *CLIFFORD'S EXTRACT*, and is fast taking the place of Quinine and the so-called *Ague Cures*, etc., in the market.
